Dear Charles,

Taiwanese Patent Application No. 81104747
Your ref: PM 1522 - Our file: 33442

Thank you for your facsimile of 2nd November.

Our Associates in Taiwan will file an application for re-examination which will extend our term for response by setting a new term for filing the reasons for re-examination. I hope that we can get instructions to Taiwan by the end of November and I shall be studying the objections and the citation with a view to meeting that target. On a first superficial look it appears that the Examiner has mis-understood the nature of the process covered by the claims of the new application since he seems to think that it is concerned with the use of liquid carbon dioxide.

Yours sincerely,

P.A.Smith
